

APRIL 4, 2014

Dear Affiliated Society President:

The Israel Society of Gynecological Endoscopy (ISGE IL) has undertaken the prestigious task of organizing the 12<sup>th</sup> AAGL International Congress, which will be held in Jerusalem, Israel on 16-19 June 2015. We look forward to your support and believe that with your encouragement and participation the 12<sup>th</sup> AAGL Congress will be a great success. As President /Chairman of the Gyn. Endoscopic Society in your country we would be most grateful for your assistance in conveying this personal invitation to your society members, as well as all gynecologists and operating theatre teams.

Prominent specialists and lecturers in the various fields of Minimally Invasive Surgery will be invited to take part, with particular emphasis on innovations and developing trends. Our agenda, in addition to original lectures and video sessions, aims to expose Start Up companies involved in improvements in our field of surgery. We have also created a program of particular interest for young endoscopic surgeons, and have designed a fascinating additional program, which will appeal to operating theater team.

Israel is one of the most interesting places in the world: the history, the diverse scenery, and the religious sites make it a very special place to visit. The weather in June is perfect for touring in Israel and we are convinced that all those who choose to honor us with their presence will thoroughly enjoy the professional and cultural experiences.

All information regarding the congress can be found on the website: [www.aagljerusalem2015.com](http://www.aagljerusalem2015.com). The organizers, both committee and company are pleased to offer their assistance on all questions or requests.

We look forward to seeing you in June 2015.
